SMART DELIVERY FOR SMART PUNE

SMART DELIVERY

## WASTAGE AND CONGESTION DUE TO DELIVERY VEHICLES IN PUNE

We lazy Puneties all love home delivery.

And we are keenly adopting home delivery services like Food Panda, Big Basket, Flipkart, Snapdeal.

But these isolated delivery systems are wasting resources of city creating undue congestion and wasting fuel.

**SMART DELIVERY**

## ROOT CAUSE: THEY ARE ISOLATED AND DISCONNECTED

Each delivery service has its own pool of vehicles and they are under utilised. When delivery of goods is finished. The vehicles return empty handed. Furthermore long distance deliveries blocks other pending short distance deliveries.

**SMART DELIVERY**

# THE SOLUTION

## SMART DELIVERY

Creating an aggregation and collaboration platform for delivery services to share each others' delivery options.

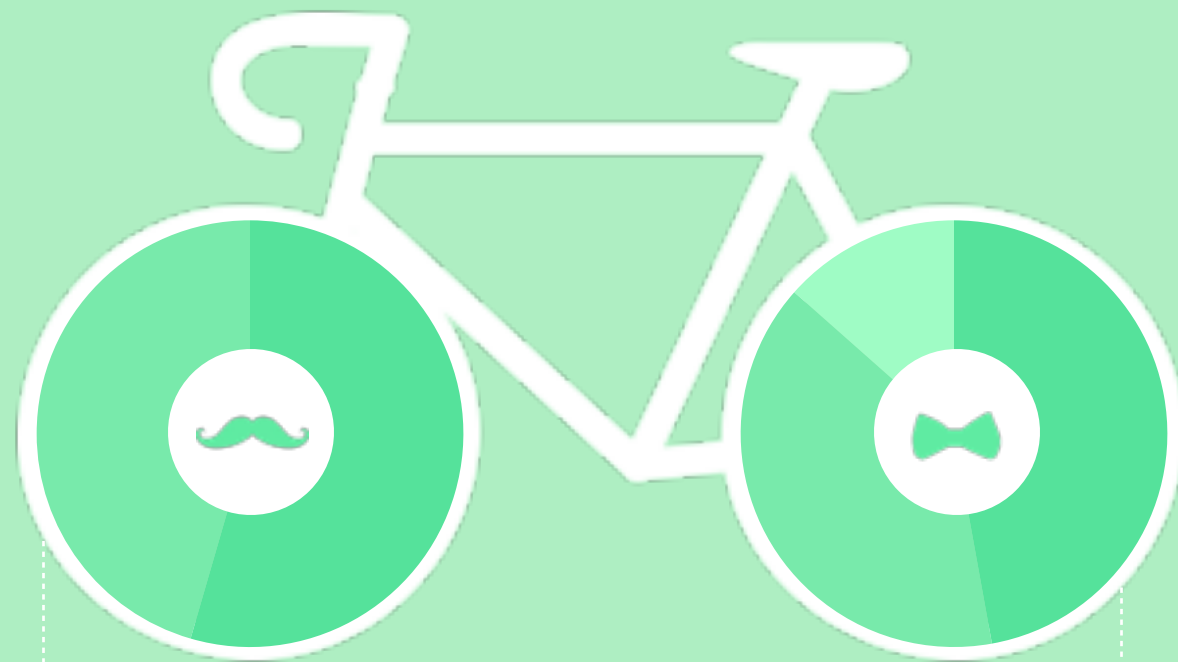

Smart data analytics coupled with location data to find quicker paths .

Mobile front end for delivery boys to find location of pickup and delivery.

# MY SKILLS

## FRONT END DEVELOPER

60%

ReactJS Backbone  
developer.  
I make intuitive mobile  
experiences using  
React Native

## BACKEND DEVELOPER

40%

NODEJS Geek

## SKILLS I NEED

1

COMMUNICATION  
AND HARDWARE  
GEEK

2

DATA SCIENTIST

3

PERSON WITH  
KNOW HOW OF  
Delivery  
BUSINESS
